
Decomposition of drug-response variance across 49 cell lines and 379 drugs
A Where response variance lives
median share of response variance
0.0
0.2
0.4
0.6
0.8
5%
3%
92%
drug x dose
(additive)
line x drug
(interaction)
noise
B Context-dependent genes
interaction variance
total response variance
H19
HLA-H
SAA1
SAA2
HLA-G
ADAMTS6
MMP1
C A long tail of context-dependent genes
median 3.3%
genes
interaction fraction of response variance
