Decomposition of drug-response variance across 47 cell lines and 50 drugs
A Where response variance lives
median share of response variance
81%
9%
10%
drug x dose
(additive)
line x drug
(interaction)
noise
B Context-dependent genes
interaction variance
total response variance
SAA1
SAA2
LDHA
H19
C A long tail of context-dependent genes
genes
median 9.8%
interaction fraction of response variance
